TLS AND SRTP SECURITY ENCRYPTION
TECHNOLOGY ACCOUNTS

7-WAY AUDIO CONFERENCING & 3-WAY
720P 30FPS HD VIDEO CONFERENCING

GT890 VIDEO PHONE

ENHANCED USER EXPERIENCE

The GT890's user interface is so intuitive that little to no training is required. The icons are easily recognizable and provide quick access to the available features and functions. Just lifting the handset, automatically displays the built-in Dialer. The keys are large and easily readable – so less chance of mistakes. Once a number is entered, you can choose to make an "Audio Call" or "Video Call" or, during a call, switch from auto to video. Change from handset to speaker with a simple tap of the "Media" button. The Dialer screen also gives access to a keyboard to enter a new contact in your directory. Once on a call, there is one-touch access to conference in others, mute the line, pull up the keypad and more.

INSTALLATION AND CONFIGURATION MADE EASY

The GT890 is easy to install and comes preloaded with the QR Code application that allows the administrator to select required configuration data to be applied to other GT890 phones.

AT A GLANCE

- > Full 7-inch (1024x600) capacitive five-finger multi-touch display
- > Built-in advanced mega-pixel camera with privacy shutter for HD video calling/conferencing
- > 7-way audio- and 3-way HD video conferencing capability
- > Supports 16 lines with up to 16 SIP accounts
- > Built-in Bluetooth® for syncing mobile devices' contact lists and call history
- > Gigabit network speed and innovative telephony functionalities Android™-based operating system
- > Open interface for custom application development
- > Wi-Fi support enables wireless network connection for placement flexibility and Hot Spotting
- > Built-in PoE/PoE+ for power and network connectivity
- > Speakerphone with HD acoustic chamber, advanced echo cancellation and excellent double-talk performance
- > TLS and SRTP

USER EXPERIENCE TAKEN TO A NEW LEVEL

With its intuitive interface and capacitive five-finger multi-touch display, it takes the user's experience to a new level.

Built-in Wi-Fi

Integrated dual-band Wi-Fi (2.4GHz & 5GHz)
